waters of nun it was the water bird that garnered the most prestigious veneration birds like geese herons and the ibises were associated with this period of creation and according to some beliefs the world came about thanks to the great honk of a primordial goose whose eggshell was said to be preserved in the temple of thoth it was believed that he created thoth's baboon form to be that of his shining moon but his ibis form was that of a messenger between heaven and earth although he was much more than this thoth the history and legacy of the ancient egyptian god who maintains the universe looks at the mythology surrounding one of antiquity's most famous deities along with pictures depicting important people places and events you will learn about thoth like never before
