this is an exposé detailing new york city mayor michael bloomberg s  
education and construction policies between 2002 and 2009 inclusive it  
covers all major education issues schools chancellor school budget  
grading of the schools reducing class sizes small charter and culturally  
themed schools standardized testing school safety overcrowding and  
mayoral control and all major real estate development issues rezoning  
ulurp self certification various fatal construction accidents and disasters  
affordable housing lack of construction law enforcement and the large  
projects that characterized the administration this book features a list of  
abbreviations and a comprehensive index in the back a page of the  
introduction p 11 is crucial for understanding references made throughout  
the book therefore it is reproduced below making himself available to  
parents the mayor performed the important tasks of negotiating with the  
unions securing funding from the higher powers and making public  
relations appearances when there was good news to report i have observed  
that there were three recurring themes in mr bloomberg s modus operandi  
in both education and real estate development theme 1 he was overly  
optimistic as his various education initiatives and construction projects  
progressed he routinely threw around and changed numbers on  
standardized test scores graduation rates school openings school crime  
rates construction costs creation of jobs and affordable housing units

among others and sometimes even distorted facts outright theme 2 time after time mr bloomberg asked for input from the community or purported to on new school openings and on construction of schools and other projects but usually ended up hiring his cronies and ignored the community's wishes theme 3 he took advantage of legal loopholes or skirted around the law to forge ahead with his agenda his agenda was to acquire power why else did he take control of the schools and overturn term limits it was not for the money in november 2009 mr bloomberg won his third term election bid by a narrow margin mostly because he was still viewed as a stronger candidate than the opposing one his power and popularity were waning however rocked by various investigations in recent years including a slush fund scandal and corruption and sloppiness in construction that led to fatal accidents that resulted in the termination of decades long unethical practices further he was accused of being involved in various conflicts of interest and of being hypocritical on environmental and health issues two farmyard clichés and one generic cliché also aptly describe many occurrences during the bloomberg administration between 2002 and 2009 cliché 1 just another case of the fox guarding the henhouse cliché 2 closing the barn door after the horses have already fled cliché 3 do as i say not as i do the above themes and clichés are so common in my text that i refer to their generic names i.e. i will use the blog style for example file under theme 1 or file under cliché 2 when providing evidence of same enjoy

read award winning journalist frank bruni's new york times bestseller an inspiring manifesto about everything wrong with today's frenzied college admissions process and how to make the most of your college years over the last few decades americans have turned college admissions into a terrifying and occasionally devastating process preceded by test prep tutors all sorts of stratagems all kinds of rankings and a conviction among too many young people that their futures will be determined and their worth established by which schools say yes and which say no in where you go is not who you'll be frank bruni explains why this mindset is wrong giving students and their parents a new perspective on this brutal deeply flawed competition and a path out of the anxiety that it provokes bruni a bestselling author and a columnist for the new york times shows that the ivy league has no monopoly on corner offices governors mansions or the most prestigious academic and scientific grants through statistics surveys and the stories of hugely successful people he demonstrates that many kinds of colleges serve as ideal springboards and he illuminates how to make the most of them what matters in the end are students' efforts in and out of the classroom not the name on their diploma where you go isn't who you'll be americans need to hear that and this indispensable manifesto says it with eloquence and respect for the real promise of higher education
