in 1920 ludwig von mises proclaimed that all attempts to establish socialism would come to grief for reasons of informational efficiency at first socialists and economists took mises s argument seriously

but by the end of the second world war a consensus prevailed that mises had been discredited more recently that consensus has been rapidly reversed it is now widely agreed that mises was right yet the momentous implications of the mises argument for economics politics culture and philosophy remain largely unexplored from marx to mises is a clear penetrating exposition of the economic calculation debate and a scrutiny of some of the broader issues it raises
